

## *What Is A Mother?*

*A mother is someone who's always around  
when you're stuck for some friendly advice.  
A mother is someone who knows how you feel  
and who'll help you without thinking twice...  
A mother is someone so thoughtful and kind  
she's made her own place in your heart...  
A mother is someone you wish all life's best  
with the love that's been hers from the start.*
